WHAT ACTUALLY CHANGES FOR YOU ?

WRITING — YOU TYPE

🕒 Two tasks | 60 minutes

No handwriting. No crossing out. Your word count appears on screen, shifting the focus to **typing speed, organisation and on-screen editing.**

READING — YOU SCROLL

🕒 Three passages | 40 questions | 60 minutes

You use on-screen tools to highlight and make notes. Finding evidence quickly becomes a **navigation skill** as well as a reading skill.

LISTENING — YOU ANSWER LIVE

🕒 Around 30 minutes | 40 questions

You enter your answers while the recording plays. There is **no 10-minute transfer window** at the end, so hesitation can cost you the next question.

SPEAKING — UNCHANGED

🕒 11–14 minutes | 3 parts

A face-to-face speaking test with a certified examiner.

ONE-SKILL RETAKE

If one skill is pulling down your overall score, **IELTS One Skill Retake** may allow you to retake that individual skill instead of the full test.

RETAKE ONLY THE SKILL YOU NEED

Focus on improving your weakest area.

SAVE TIME & MONEY

No need to retake the full test.

IMPROVE YOUR SCORE

Boost your overall band by improving one skill.

It is available for eligible **computer-delivered IELTS tests** and must be taken in the **same delivery mode** as your original test.
