WHAT THE **GRE** TESTS

VERBAL REASONING

- **READING COMPREHENSION**
Analyse passages, identify the main point, infer meaning, and evaluate the author's reasoning and perspective.
- **TEXT COMPLETION**
Use sentence structure, context and logical relationships to determine missing words.
- **SENTENCE EQUIVALENCE**
Select two words that produce sentences with equivalent meanings.
- **VOCABULARY IN CONTEXT**
Understand word meanings and relationships between words and concepts as they function in context.

QUANTITATIVE REASONING

- **ARITHMETIC**
Integers, fractions, decimals, ratios, percentages, powers, roots and quantitative relationships.
- **ALGEBRA**
Expressions, equations, inequalities, functions and mathematical relationships.
- **GEOMETRY**
Lines, angles, triangles, quadrilaterals, circles and three-dimensional figures.
- **DATA ANALYSIS**
Interpret tables and graphs; work with statistics, probability and quantitative information.

WHAT THE **GRE** TESTS

ANALYTICAL WRITING

WHAT YOUR GRE PREPARATION LOOKS LIKE AT KONVERSA

TARGET SCORE

300–310

FOUNDATION + SCORE BUILDING

Strengthen Arithmetic, Algebra & Data Analysis. Build Reading Comprehension and Text Completion accuracy, learn GRE question types, then move into timed section practice.

311–320

TARGETED SCORE IMPROVEMENT

Diagnose weak Quant topics and Verbal question types, refine problem-solving, improve vocabulary application, then use sectional tests to fix timing and consistency.

320+

ADVANCED SCORE REFINEMENT

Focus on medium-to-hard Quant, high-level RC inference and common traps. Analyse every mock for recurring errors, pacing decisions and missed high-value questions.

WHAT MAKES KONVERSA DIFFERENT?

FREE GRE DIAGNOSTIC

Start with a clear understanding of your current level. We assess your Verbal and Quantitative readiness, discuss your target score and timeline, and identify the areas that need attention before you begin.

EXPERT GRE FACULTY

Learn from trainers with 10+ years of experience and ETS-aligned training credentials.

TARGETED PREPARATION

Your preparation is not built around spending equal time on every topic. We focus on the areas that require the most work across concepts, question types, accuracy and time management.

GRE QUESTION STRATEGIES

Learn how to approach key GRE question types, including Reading Comprehension, Text Completion, Sentence Equivalence, Quantitative Comparison and Data Interpretation—with emphasis on choosing an efficient approach rather than relying on guesswork.

CONCEPTS GRE APPLICATION

Build the required foundation in Arithmetic, Algebra, Geometry, Data Analysis, vocabulary and reading skills, then apply those concepts to GRE-style questions and timed practice.

PRACTICE IS ONLY USEFUL WHEN IT TELLS YOU WHAT TO DO NEXT.

1

ANALYTICAL WRITING FEEDBACK

Practise the Analyze an Issue task with feedback focused on position development, reasoning, supporting examples, organisation, coherence and language control.

2

TIMED PRACTICE & MOCK TESTS

Move beyond untimed practice with section-level timed exercises and computer-based GRE-style mock assessments designed to build pacing, accuracy and test familiarity.

3

ERROR & PERFORMANCE REVIEW

Don't just record your score. Review what you got wrong, why you got it wrong, which question types are causing difficulty, and where time is being lost—so subsequent practice has a clear purpose.

ONGOING SUPPORT

WHAT OUR STUDENTS SAY

“

RIYA SHARMA

Delhi, India | GRE: 323

I was comfortable with Quant but struggled with Verbal. Konversa helped me identify where I was losing marks and approach Verbal questions in a much more structured way.

“

ARJUN MEHTA

Bengaluru, India | GRE: 318

My biggest challenge was timing. GRE-focused practice helped me improve my approach to different question types and become much more disciplined with time.

“

ADITYA NAIR

Pune, India | GRE: 325

I needed stronger Quant fundamentals and a better understanding of how to apply them to GRE questions. The mock-test analysis was especially useful.

“

MEGHA PATEL

Mumbai, India | GRE: 320

Analytical Writing was my least confident section. Feedback on my Issue essays helped me improve reasoning, structure and development instead of memorising a format.
